

Printable Emergency Fund Saving Trackers

by Kristen Whirrett of Joyfully Thriving

Start by setting an emergency fund goal.
Dave Ramsey recommends starting with \$1000,
and then building your emergency fund to be
3 to 6 months of your expenses.

Pick a tracker to use and print it off.

Hang it in a spot where you see it often.
Each time you add to your emergency fund
savings account, color in a square.

When the squares are full,
you will have met your savings goal!

You can use the \$2000 chart 3 times, to meet
a goal of \$6000, or use the \$6000 chart.

Mix and match these trackers to hold you
accountable and motivate you to save.

Start saving today!
